Course Name: Question Bank

Self-test questions with model answers

Student: Your Name (YOUR-ID)

Companion file: `notes_theory.tex`

How to use this bank. Each question sits in a box. Cover the answer below it to test yourself, or copy the answer straight onto the exam paper.
Tags. PAST EXAM A the 2024 final PAST EXAM B the 2025 final LIKELY the lecturer said it will appear COMPUTE needs a calculation PRACTICE for drill TWIST a lecture example with one detail changed

Past exams, transcribed

Final 2024 (June 4, 2024), 100 pts, 120 min

Copied word for word, marks per part. Cross-checked with the answer key where one exists.

A-Q1 PAST EXAM A Short title (25 pts)

> *(a) [10 pts] The question exactly as printed. (b) [15 pts] …*

Answer: (a) … (b) …

In plain English: what the answer really says.

Note: the lecturer said part (b) will not be on our exam.

Which topics come up most

Topic	2023	2024	2025	Times
Topic A	Q1	Q2	Q1	3
Topic B	–	Q3	Q4	2

Group 1 — Topic name (Midterm + Final)

Q1 LIKELY What is X? Give its four parts.

> Define X and list its four parts. Give one example. *(10 pts)*

Answer: X is … Its four parts are: (1) … (2) … (3) … (4) …

Why, step by step:

1. …

Trap to avoid: confusing X with Y (Y is about …).

Also asked as: *"Explain the components of X"* · *"What does X consist of?"*

Q2 COMPUTE **A short calculation**

> The question.

Answer: [. . .]

Recipe for any question like this: (1) … (2) …

Twist questions (lecture examples with one detail changed)

Read this before the trap questions. The look-alike words and how to tell them apart.

T1 TWIST **Which label fits?**

> Classify each item.

Item	Label	Why
…	…	…

The trap: …

Mock exams

Mock Exam 1 — Easy (100 pts, 120 min, open book)

M1-Q1 LIKELY **Title (25 pts)**

> The question.

Answer: …

Mock Exam 2 — Medium (100 pts, 120 min, open book)

…
